GPS APRS TRACKER FOR YOUR VHF RADIO

MASTER-APRS TRACKER

Plugs into your VHF radio and beacons your GPS position over APRS. Set it up from your phone over Wi-Fi.

Built-in GPS
Accurate location tracking.

Web configuration
Easy setup over Wi-Fi.

Your settings
Callsign, SSID, path, interval and comment.

Automatic beaconing
Adjustable interval and smart beaconing.

1200 bps AFSK
AX.25 APRS, with manual TX and channel busy detection.

Most VHF radios
Handheld, mobile and base.

2000 mAh battery
Built in and rechargeable.

USB-C charging
Charger built in.

Charge light
Red while charging, blue when full.

Quick setup

1. Connect the cable to your radio, tune to the APRS frequency and turn squelch on.
2. Switch it on, join its Wi-Fi and open 192.168.4.1 to enter your callsign and settings.
3. Tap Save Settings. Once the GPS light is steady, it beacons.
