MORSE TERMINAL FOR 2 M FM

MASTER-CW LINK

Send and receive Morse code over an ordinary 2 m FM radio. Type to send, and read the other station as clean text.

Automatic decoder
Shows received CW as text and estimates the sender's speed.

Tone tracking
Locks onto any tone from 400 to 1200 Hz.

Keyboard sending
Live as you type, or a whole line at a time.

Phone or PC control
Web page over Wi-Fi. No app to install.

8 memory buttons
For CQ, reports and sign-offs.

Battery powered
Charges from any 5 V USB-C charger.

2 m FM	5–40 WPM	TX time-out	OLED display
MCW over an ordinary FM transceiver.	Tone 400–1200 Hz, soft keying.	Stops after 2 minutes of continuous PTT.	128 × 64, sent and received text.

Quick setup

1. Charge it from a 5 V USB-C charger.
2. With the switch at OFF, plug the radio cable into the top Transceiver jack.
3. Switch on and join the CW-VU2RCY Wi-Fi.
4. Open 192.168.4.1, enter your callsign and press Save.

SETUP WI-FI

Wi-Fi	`CW-VU2RCY`
Password	`cw123456`
Open	`192.168.4.1`
