HAM RADIO DESK CLOCK

MASTER-HAM-CLOCK

A compact desk clock for amateur radio operators. Time, HF band conditions and live station activity on one bright colour screen.

Clock display
Shows UTC and local time.

HF band propagation
Live open and closed conditions for the HF bands, so you know which bands to try.

Active stations
Which stations are active on each band right now.

APRS stations
Nearby APRS stations and their activity.

Solar data
Solar conditions that affect propagation.

Colour screen
Easy to read at a glance.

USB-C power
Any USB-C charger or computer port.

Compact case
Sits neatly on the shack desk.

Personalised
Shows your callsign on startup.

Good for Hams and DXers · APRS users · Shortwave listeners · Gifts for radio fans
